COMICS • ARTS • EDUCATION

Hello! I'm Noémie, and I'm creating visual storytelling!

I come from the international arts and culture management field, where I have been working for over 15 years. Today I live in Berlin, as a comic artist and as a teacher. My heart beats for a wider access to art, culture and education for all. Humor and knowledge are at the core of my work.

Comics are a fantastic medium to democratize knowledge and I do believe it's the perfect medium to speak about hard issues in a smooth and accessible way. And it's fun!
